GovCollab
FedRAMP-Hosted Atlassian Solutions Provider

ATLASSIAN | Silver Solution Partner   ✕ Confluence   ◆ Jira Software

What is GovCollab?

GovCollab is the only managed service provider for FedRAMP-hosted Jira and Confluence solutions. We provide access to the Atlassian tools that accelerate mission delivery for our Federal clients.

- Drive Program Management Objectives
- Host Data Collections
- Support Collaboration Spaces Across Organizations

Why is GovCollab the Solution of Choice?

GovCollab answers three primary needs facing Federal agencies:

A secure FedRAMP-hosted platform	Managed service support driving Federal agency mission goals	Intra and interagency collaboration spaces

Our GovCollab experts have experience migrating Confluence content.

Fully Leverage Confluence and Jira

GovCollab staff have extensive experience supporting a multi-agency Confluence platform with hundreds of thousands of users. We can provide the support you require for:

- Plugins
- Integrations
- Updates
- Customization (Workflows, Permissions, Interfaces)

Straightforward Pricing

GovCollab offers simple pricing and support based on:

- Total number of users
- Professional services, customizations, and your specific support needs
